EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Scherer on 5/4/09.

The application has been amended as follows: **Claim 31 line 5 delete "second end of a magnetically" and replace with -- second end of the magnetically --.**

2. The following is an examiner's statement of reasons for allowance:
Regarding claim 24 (also method claim 31) the prior art of record does not teach or suggest alone or in combination, the combination of elements particularly the magnetically inducible core together with first and second pluralities of printed circuit boards disposed at first and second ends and, conductors insulated from the core and running through the core connecting the first and second plurality of boards. The prior art of Kwong et al discusses some claim elements except for a plurality of circuit boards no insulation for the electrical connectors and no magnetically inducible core.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
